## CAR PARKS

### Pricing Policy

- (a) To levy charges at Council owned car parks where it is cost effective to do so (i.e. where anticipated revenue exceeds the cost of installing, maintaining and emptying a ticket machine) or where car park management is problematical without the discipline.
- (b) To set charges at a level which maximises total revenue from car parks, to the extent that this policy is compatible with other policy objectives.
- (c) To set charges which encourage short-stay parking on car parks closest to local amenities and long-stay parking on more peripheral car parks.
- (d) To determine charges separately for each town having regard to the different levels of demand for off-street parking and the economy of each area.
- (e) To apply different charges during times of peak demand than for off-peak parking, where possible.
- (f) To provide reserved car parking spaces only where there is a perceived need and pay and display parking is not practicable, where economic to do so.
- (g) Reserved
- (h) (Reserved)
- (i) To set a charge for annual season tickets which approximates to: 1. For a ticket valid throughout Allerdale.
- (j) To make season tickets available to all, whether residents or non-residents which are valid for one year and may contain 2 vehicle registration numbers.
- (k) To penalise any contravention of the Council's Parking Places Order (as amended) under the terms of the Traffic Management Act 2004 at the maximum level of penalty permitted by the Secretary of State.
